

GETTING TO KNOW YOUR CHILD'S MODULATOR

A workshop for parents and carers of children
with sensory processing difficulties.

This is a 2 part workshop based on the book 'Max and me- a story about sensory processing'

What is it about?

The workshop uses the analogy of a modulator to describe how the body processes sensation. In part 1 parents will learn about sensory modulation and how to recognize when the child's modulator receives too many messages and is stressed and when he doesn't get enough and falls asleep! In part 2 parents will learn about how emotional responses can play a role in sensory regulation and problem solve particular sensory based behaviours which are causing difficulties at home/school.

When?

Saturday 9th and 23rd January 2016

What time?

2pm-4pm

Where?

**The Dublin Adult and Child Therapy Centre,
11 Sandford Business Park, Blackthorn Avenue, Sandford,
